Bonus Mission

How good is your solar system knowledge?

Try answering the questions below!

(Tip: Answers can be found on the planet posters in each participating business)

How many days does Mercury take to orbit the Sun?

True or False. Jupiter is the largest planet in the solar system?

How many moons does Neptune have?

What is the surface temperature of Venus?

*The Cathedral is open Mon-Sat 9am-5pm and Sun 12.30pm-2.30pm

Please note some participating businesses are closed on Sundays/Mondays
